

Name : Panneerselvam N
Role : Research Intern – Inepect
Date : 16/06/2021

Task : Data Collection (Tower Inspection)

Today I have collected the following categories of datasets:

- Insulators
- Bird's Nest

Insulators :

I have fully downloaded two public dataset repositories.

Link : <https://github.com/InsulatorData/InsulatorDataSet.git>

Link : <https://cv.po.opole.pl/dataset1/>

Totally 6200 images are there in insulator category.

Bird's Nest:

I have collected around 220 images using web scraping. For web scraping I have used Image Downloader- Image eye chrome extension.

Link : <https://zenodo.org/record/4015912#.YL2kYZozZNh>

Above repository have many datasets related to bird's nest category. Due internet problem I didn't able to download, because of large file size .
